

# ALEGRA

VERDEJO

## Characteristics

**Grape variety** : 100%Verdejo

**Region**: D.O. Rueda

**Viticulture**: Manual harvest and grapes selected in the vineyard.

**Elaboration**: Grapes are crushed and destemmed; grapes are macerated with skins for a few hours and pressed lightly. Fermentation occurs at controlled temperature in stainless steel tanks; once achieved, wine is gently stabilized, filtered and fined before bottling.

## Tasting note

Fresh, crispy and slightly herbaceous (in fact, word Verdejo comes from Verde, in Spanish green). A true character of Verdejo reflecting our terroir: poor soils and a continental climate with sunny days and cool nights which produces fresh wines intensely fruity.

## Pairing

Perfect pairing for appetizers, fish and sea food, as well as light pasta dishes and rice. Ideal with Asian and spicy food.
